PROFESSIONAL EXPERIENCE

- **Simply Vyapar**
Software Engineer – SDE-2 (Ex-SDE-1)

Bangalore, India
June 2023 – Present

 - **Flyy App – WhatsApp Marketing Platform:** Owned end-to-end development of core **React** workflows (Licenses, Customers), delivering scalable and responsive user experiences across platforms. Established the frontend architecture and build system using **Rspack**, enabling optimized releases for Windows and macOS.
 - **Flyy Backend & Payment Integration:** Designed production-grade backend architecture and implemented scalable REST APIs using **NestJS**. Integrated end-to-end license purchase and renewal flows with **Razorpay**, ensuring secure and reliable payment processing.
 - **AI Poster Generation:** Built an AI-powered poster generation workflow in Flyy using **Server-Sent Events (SSE)** for real-time updates and an independent **Razorpay** payment flow.
 - **Astro Vyapar – Daily Business Horoscope:** Developed responsive **React** UI using **Tailwind CSS** for a cross-platform application delivered via Android and Desktop WebViews, providing personalized astrology insights.
 - **Vyapar Network – Invoice Collaboration:** Led system design and development of invoice-sharing workflows between Vyapar-connected users, eliminating reliance on external channels and supporting real-time tracking for **25K+ invoices/month**.
 - **POS System – Retail-Grade Architecture:** Delivered fault-tolerant POS modules (inventory, checkout, EDC payments) for a retail system used by **50K+ merchants**, ensuring mobile responsiveness and production reliability.
 - **Loyalty Points – Setup Flow Launch:** Designed and implemented the onboarding flow for Vyapar’s Loyalty feature, improving adoption.
 - **Referral and Earn Program:** Designed and launched a referral platform that achieved a **14.7% conversion rate** during the initial rollout, driving organic user acquisition and increasing product adoption.
- **Simply Vyapar**
Software Engineer Intern

Bangalore, India
Jan 2023 – June 2023

 - **Data Visualization and Analysis:** Utilized **React**, Chart.js, and JavaScript to build dashboards transforming raw sales data into actionable insights for **10,000+ business owners**.
 - **Optimized Data Management:** Established relationships between sales orders, invoices, and delivery challans using SQLite, improving query efficiency through advanced SQL optimization.
 - **UI and UX Enhancements:** Revamped the login experience with modern UI patterns, improving completion rates and overall user satisfaction.
 - **Reusable UI Components:** Created TypeScript-based Material UI components and documented them in Storybook for consistent reuse across teams.

SKILLS SUMMARY

- **Languages:** JavaScript (Proficient), TypeScript, SQL
- **Frontend:** React, Redux, Redux Toolkit, Next.js, Electron.js
- **Backend:** Node.js, NestJS
- **Styling:** HTML, CSS, Tailwind CSS, Material UI
- **Databases:** SQLite, MongoDB
- **Tools:** Rspack, Vite, Webpack, Git
- **Core Strengths:** UI Architecture, Responsive Design, Problem Solving

EDUCATION

- **PES University**
B.Tech – Computer Science and Engineering; CGPA: 8.71

Bangalore, India
2019 – 2023

ACHIEVEMENTS

- **Vyapar Hackathon Winner (2023):** Built a generative AI-powered feature in 24 hours, winning 1st place among internal teams.
- **MRD Scholarship:** Awarded a merit-based scholarship for academic excellence during B.Tech.
- **Springer Conference Paper:** Published “Personalized Film Discovery Service” at ICAIS, focused on hybrid machine learning-based recommendation systems.
